

# Breaking Barriers

## Anti-PEG Probe: Redefining BLI Analysis of PEGylated Lipid Nanoparticles

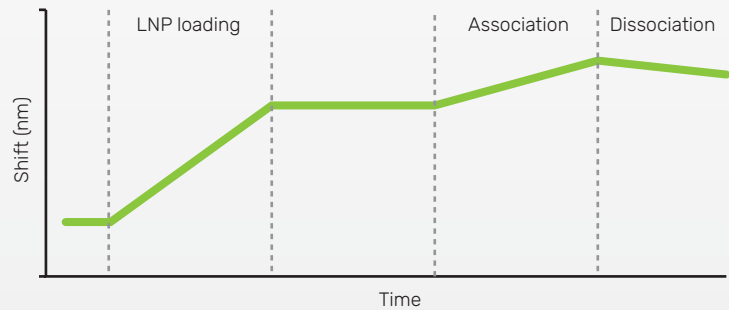

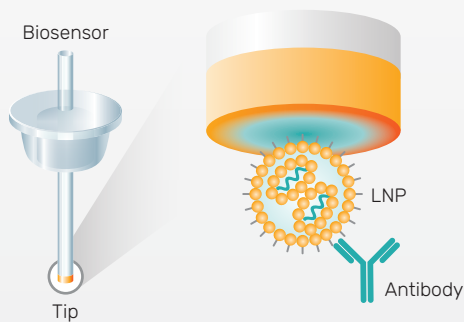

At Gator Bio, we are persistently innovating and pushing the boundaries of BLI technology. Check out our latest offering: The anti-PEG BLI probe for quantitation and kinetics analysis of LNPs in buffers and biological matrices without signal inversion.

### Traditional BLI

### Gator BLI - Positive signal

**So that you can analyze your PEGylated LNPs with confidence!**
